Subject: Official USPTO Notice of Design Search Code: U.S. Trademark SN: 88480647: Miscellaneous Design

Docket/Reference Number:

The USPTO has assigned design search codes to your application (U.S. serial number: 88480647).

Design search codes assigned to your application:

26.01.26 - Coils
26.01.26 - Spirals
26.01.26 - Swirls

If you would like to request that we add or delete a design search code, please email TMDesignCodeComments@USPTO.GOV. Include your name, application serial number, a list of design search codes you would like to add or delete, and a brief justification. We will process your request within two business days. If we approve your request, the updated list of design search codes will appear in our Trademark Status and Document Retrieval (TSDR) database, accessible at <https://tsdr.uspto.gov/>, under the "Mark Information" tab.

Design search codes are numerical codes we assign to the prominent features of your mark's design. We call these features "design elements." A design element can be any component of your mark that is not a word, such as a depiction of a star or a flower. Assigning design search codes to your mark helps us more effectively search our database for marks that may conflict with yours. Design search codes have no legal significance and will not appear on the registration certificate.

For more information about design search codes, including why and how we use them and information on adding or deleting design search codes from your application, please visit our design search code webpage at <http://www.uspto.gov/DesignSearchCodes>. For a list of design search codes, see the design search code manual at <http://tess2.uspto.gov/tmdb/dscm/index.htm>.

For questions, please call 1-800-786-9199 (option 1) to speak to a Customer Service representative in the Trademark Assistance Center. Please visit <http://www.uspto.gov/TrademarkAssistance> for additional information about the Trademark Assistance Center.

This notice will be available in TSDR in one business day.

EXAMINER'S AMENDMENT

Issue date: September 10, 2019

USPTO database searched; no conflicting marks found. The trademark examining attorney searched the USPTO database of registered and pending marks and found no conflicting marks that would bar registration under Trademark Act Section 2(d). 15 U.S.C. §1052(d); TMEP §704.02.

The trademark examining attorney is amending the application as follows. No prior approval or authorization from applicant or applicant's attorney is required. TMEP §707.02.

MARK DESCRIPTION AMENDED

The redundant wording "The mark consists of" has been deleted from the mark description. Therefore, the following description of the mark replaces the current description of record:

The mark consists of a swirl that originates from the left of the center, that is thinner on both ends of the mark and thicker in the middle,

and moves counterclockwise in a circular motion, forming two rings that conclude with a sharp point in the top left.
